IN SEPTEMBER WE HAD 119 DNA'S, PLEASE WORK WITH US TO TRY AND REDUCE THIS NUMBER!

THINK PINK DAY!

THIS OCTOBER we plan to have a breast awareness day at Thornton Road Surgery.

The aim of this day will be to promote breast awareness in the community.

Breast awareness is an important issue for all women in their mid-twenties and onwards.

Learning how their breasts look and feel at different times will help women know what is normal for them and to recognise any irregular changes.

The Department of Health's policy on breast awareness, which has strong support from the nursing and medical professions, encourages women to check their breast for what is normal for them.

There is no set technique when doing a self examination.

If you have been invited for screening by your local health authority do try to attend.

Women between the ages of 50-70 will automatically be invited for screening every three years.

The check only takes a few minutes and doesn't mean there is anything wrong with you.

We really hope this breast awareness day will be of benefit to our patients and we hope to see you on the day.

LOOK OUT FOR US ALL IN PINK ON THE DAY!

TRS are proud to support breast awareness month this October.

Practice Team

Dr Usman Quraishi (Male)
Dr Priya Puvanendran (Female)
Dr Georgia Whyte (Female)
Dr Abdul Halem (Male)

Pamela Kissoon Nurse (Female)
Laura Norton Nurse (Female)

Kuljeet (Practice Manager)
